
"Our phone is ringing off the hook!"

How this dentist gained 25+ New Patients every Month with AI-Backed Local SEO and Geo-Targeted Ads.

At a Glance.

This Texas-based dentist had a trusted neighborhood practice, but despite 5-star reviews and top-notch service, his appointment calendar had far too many open slots. That's when they partnered with Maven Results.

We implemented **the L.O.C.A.L. Strategy Framework,** a customized growth plan designed for location-based businesses and transformed the clinic into a thriving practice, attracting **25+ new patients every month** and finally reflecting the quality of care it provided.

The Challenge.

This dentist had a modern dental clinic in a competitive neighborhood. Though he had a loyal patient base, every day he saw the same pattern: low footfall, inconsistent bookings and no visibility online.

He needed a plan ASAP to effectively integrate his dental practice into the local landscape, so he contacted Maven Results.

> ***"We had the skills, the tech, the staff, but no one knew we existed."***

Key Metrics

- **High volume quality leads**
- **New patients 25+ Monthly**
- **Collections grew 40% monthly**
- **30% increase in website traffic**

The Gameplan. L.O.C.A.L. FRAMEWORK

L – Localized SEM. We ran Google Performance Max ads with precise location targeting, so the clinic's ads showed only in nearby neighborhoods reaching people actively looking for dental care.

O – On-Map SEO (AI-Powered). We improved their Google Business Profile and used smart, AI-driven local SEO to help them show up at the top of local search results like when people searched for "family dentist nearby" or "teeth cleaning near me."

C – Conversion-led Social Media. We created platform-specific content (Instagram + Facebook), built trust through educational reels, testimonials, and offers and drove traffic straight to the clinic's online booking tool.

A – Authority Blogging. We crafted helpful, SEO-friendly blog posts answering common questions like "What to do when a crown falls off?" and "Is teeth whitening safe?" which increased their website traffic by 30% in just 60 days.

L – Lead Flow Optimization. We aligned the landing pages, ads, and social content to funnel every lead directly into a smooth online booking experience and boosting revenue by 40% within just 3 months.

"Our phone is ringing off the hook!"
